

INDUSTRY

 **BOZEMAN**

WHAT IS INDUSTRY?

A cultivator of possibility.

Modern and moving. Classic and grounded. A recipe for something extraordinary. More than co-working, much more than co-living, it's an ecosystem of constant evolution, where people, place, ideas, and invention converge.

It begins with a foundation. At the heart of its nexus, the evolution of a new generation – reimagining the workforce. A force that works together. A force that welcomes a progressive approach to lifestyle. A force fueled by the people. We honor the tradition of ingenuity and celebrate the heritage of place.

Revitalizing spaces once forgotten with thoughtful design, engineered for the future.

It's the very best of the American spirit realized – where anything is doable. Done. And by rolling up our sleeves and taking a seat at the table, we believe intelligence is as great, as our hands are capable. Promising to rethink what is known, to create what can be better.

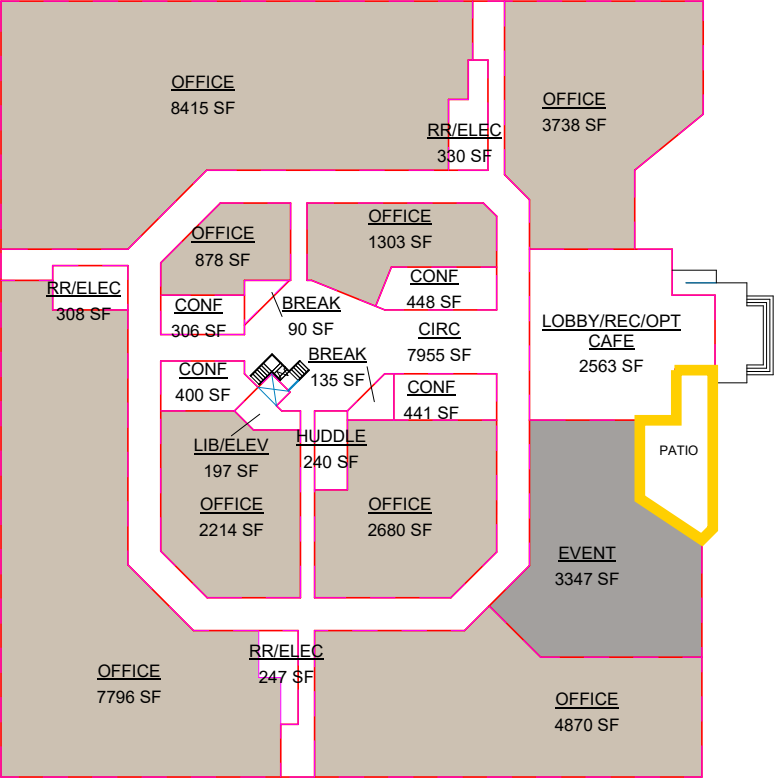

INDUSTRY is a force that works.

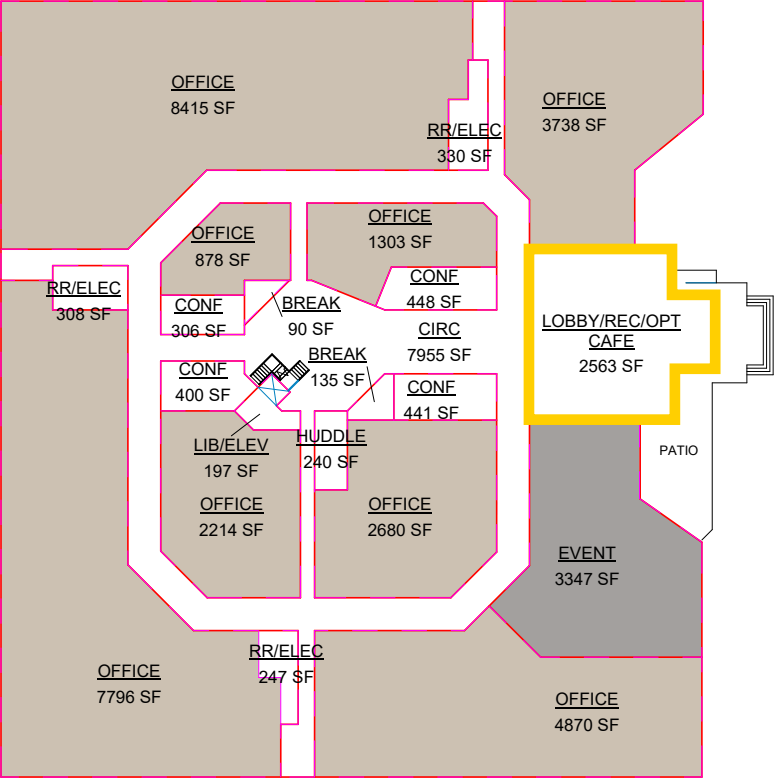

INDUSTRY BOZEMAN - EXTERIOR

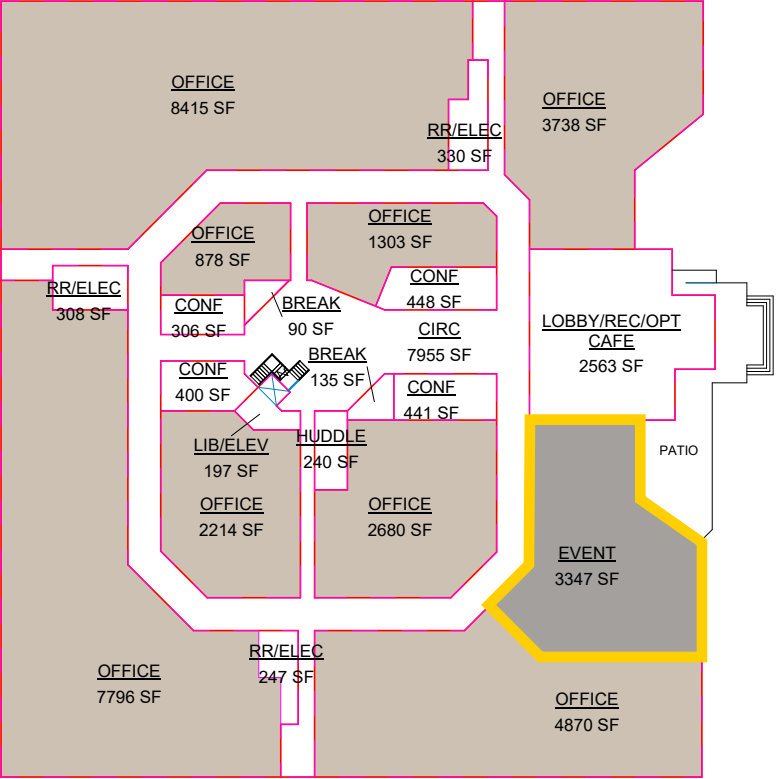

OUTDOOR SPACE

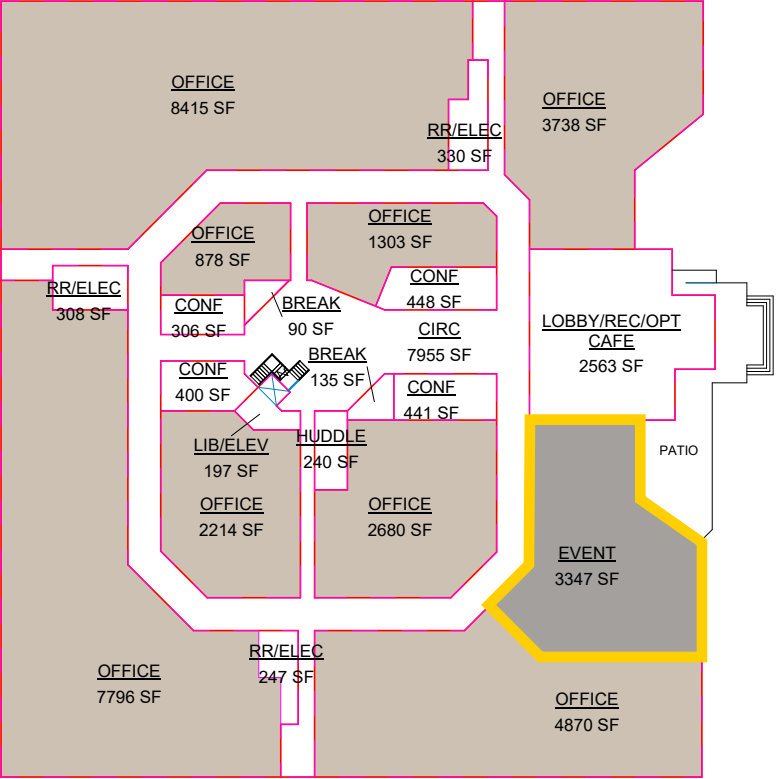

RECEPTION & CAFE
